

**CAMDEN CITY PUBLIC SCHOOL DISTRICT COMPUTER NETWORK (CPS NET)
PARENT LETTER**

Dear Parent(s) or Guardian(s):

The Camden City Public School District is pleased to announce the establishment of free school Internet services for its students. This letter describes the Internet services. Attached are the Student Acceptable Use Policy and the Access Release Form.

The Internet is a global network that will provide your child with access to a wide range of information from throughout the world. Your child will also be able to communicate with people from throughout the world. Use of the Internet for educational projects will assist in preparing your child for success in life and work in the 21st Century.

It is possible that your child may find material on the Internet that you would consider objectionable. The Camden City Public School District Acceptable Use Policy restricts access to material that is inappropriate in the school environment and we have installed network proxy software to limit access to inappropriate material. However, the software is not entirely effective in blocking access and, therefore, we cannot guarantee that your child will not gain access to inappropriate material. There may be additional kinds of material on the Internet that are not in accord with your family values. We would like to encourage you to use this as an opportunity to have a discussion with your child about your family values and your expectation about how these values should guide your child's activities while they are on the Internet.

Each school will be holding information meetings which will include a live demonstration on the Internet and the opportunity to explore the Internet on your own.

Please contact us if you have any questions or concerns.

Sincerely,
